tradesales@directtradeltd.co.uk

www.directtradeltd.co.uk

We operate from a 100,000 sq. ft. manufacturing facility, strategically located near major motorway links, ensuring efficient nationwide delivery. With continuous investment in cutting-edge Urban, Schirmer, and Stuga machinery, we produce high-performance, fully accredited products that meet the highest industry standards.

Why Direct Trade?

The Direct Trade Advantage

We understand the challenges installers face, which is why we offer:

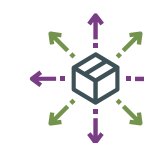

A Dedicated Support Team:

Our real, experienced professionals provide tailored advice and technical support, both in-office and on-site.

Market-Leading Brands:

We partner with the market leading brands in the industry to maintain a reliable and consistent supply chain for our customers.

Flexible Nationwide Delivery:

We offer twice-weekly deliveries nationwide, direct to site if required, with no minimum order charge.

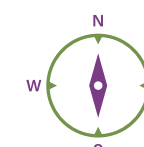

Industry-Recognised Accreditations:

Our products undergo rigorous testing, ensuring durability, energy efficiency, and security.

Unmatched Product Quality:

Advanced machinery and skilled craftsmanship ensure our products meet the highest standards.

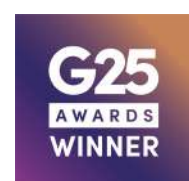

A dedicated Area Sales Team

covering the North, Midlands, South East and South West.

New Product: OMNIA

Now Available Welded & Fully Mechanical

OMNIA

OMNIA is an award-winning, complete suite of windows and doors, designed to make life simpler for you, our VEKA Installers.

Instead of juggling multiple systems, OMNIA lets you complete a full project using one high-quality system that works together, performs together, and looks right across the whole home.

One look
One level of performance
One system you can trust

Fabricated by Direct Trade, OMNIA gives you simplicity, confidence and consistency - things that matter more than ever when customers expect flawless results.

Because Direct Trade fabricate the full OMNIA suite, installers can specify joined-up solutions where everything talks to each other:

- Sightlines line up
- Finishes match
- Performance stays consistent from window to door, front to back

The result? A cleaner install, an easier sell, and a finished home that looks considered, not pieced together.

OMNIA Features

Let Direct Trade help you specify OMNIA to the homeowner

Double Flush

What it means:

Both the window sash and frame sit flush on the inside and outside.

Why homeowners care:

- Clean, modern look inside and out
- No bulky profiles
- Looks premium, whether the home is traditional or contemporary

Installer win:

You're selling design without compromise on performance.

Double Rebate

What it means:

The system has double gasket seals, so double protection against the elements.

Why homeowners care:

- Better protection against wind and rain
- Reduced draughts
- Improved comfort all year round

Installer win:

A solid performance story that backs up the look.

PAS 24 & Secured by Design

What it means:

OMNIA meets recognised UK security standards.

Why homeowners care:

- Strong resistance to forced entry
- Peace of mind, especially for families
- Insurance-friendly security credentials

Installer win:

Security is built in - no upgrades, no awkward conversations.

Double & Triple Glazing Options

What it means:

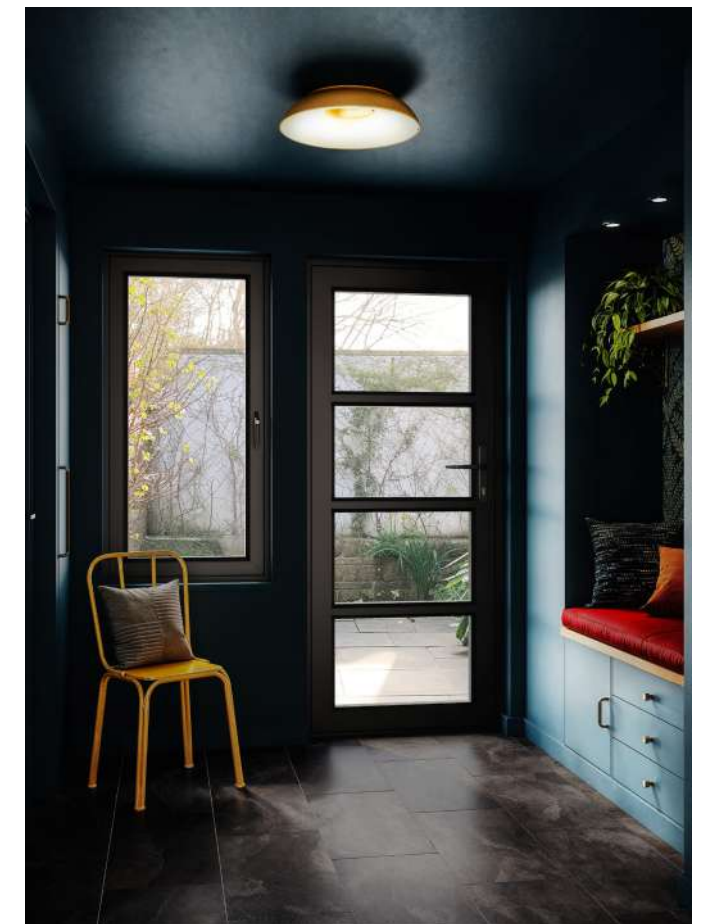

Homeowners can choose the level of insulation that suits them.

Why homeowners care:

- Better thermal performance
- Reduced energy bills
- Quieter homes, especially near roads

Installer win:

One system, multiple solutions - upsell without switching products.

Matching Windows & Doors

What it means:

Windows and doors are designed to match perfectly.

Why homeowners care:

- Consistent look across the whole home
- Colours, finishes and sightlines all align
- Adds value and curb appeal

Installer win:

A full-house solution that looks planned, not patched together. OMNIA is an award-winning, complete suite of windows and doors, designed to make life simpler for you, our VEKA Installers.

New range of Matter-enabled window and door sensors from MACO Door & Window Hardware (UK) Ltd now available

This new range of sensors can be fitted to new or existing MACO window and door hardware, activated by connecting to the existing smart network without additional modules. This innovation removes barriers to connection and integration, enhancing security, convenience, and energy efficiency for homeowners.

What are the benefits of Smart Window and Door Sensors:

Enhanced Convenience: Imagine your home greeting you with lights, music, and warmth as you walk in.

Energy Savings: Sensors can communicate with heating systems to optimise energy usage when windows are open.

Safety Features: Alerts for carers if doors are unexpectedly opened, ensuring the safety of vulnerable individuals.

Conservatories & Roofs

We supply complete conservatory packages, including the Wendland Stratus Flat Skylight for domestic and commercial projects.

Contemporary profile - 30% lower

Latest Homeowner Insights.

(Keystone Research – 2025)

Flush Sash Casement Windows

Demonstrated a continued increase in interest throughout 2025, peaking over the Spring and Summer and maintaining the higher rate through Autumn and Winter.

Tilt & Turn Windows

On an upward trend throughout the year, ending with **24%** of homeowners selecting this style as their top preference.

NOTE: OMNIA is the only double flush double rebate system to offer a Tilt & Turn solution.

Top 5 colour preferences for windows:

White

Dark Grey

Mid Grey

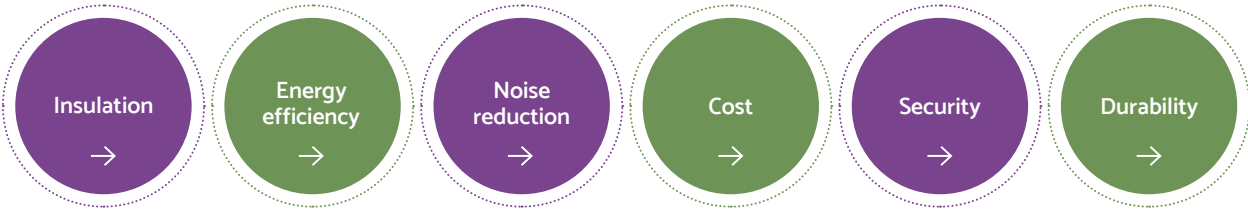

Brown Wood Effect

Light Grey

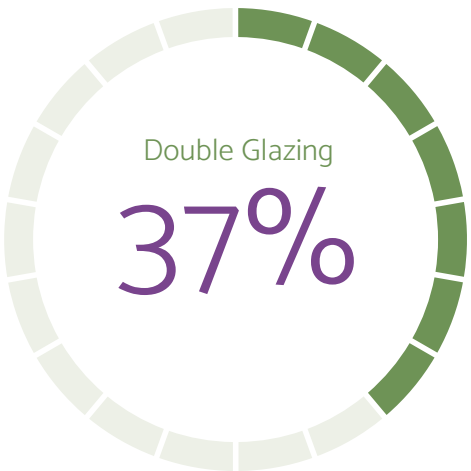

NOTE: Black moved to 2nd place in the doors colour preference (White remained 1st, followed by Black and Grey) – a great point of sale for OMNIA Door in Feinstruktur Black.

BE A PROUD VEKA INSTALLER

Practical Tools For Your Business

Installers that are part of VEKA's Installer Programme are benefiting from:

ACCESS PRODUCT BROCHURES AND USEFUL INFORMATION

Through your VEKA Edge access you will be able to download product brochures, product leaflets, technical documents, useful guides, image library and much more to help you confidently sell VEKA systems.

SOCIAL MEDIA CONTENT & DIGITAL ASSETS

According to Keystone research in 2025 nearly half of homeowners (49%) start their research online, so a strong digital presence is a huge advantage. Members get access to FREE pre-designed posts, imagery and videos to keep their business visible online.

VEKA A TRUSTED BRAND PARTNER

With trust ranking as one of the most important decision factors for homeowners, installers backed by a highly recommended systems house have a clear selling point. VEKA scored an impressive 9.2/10 in Keystone's 2025 research, making it one of the UK's most trusted names in the industry. By joining the VEKA Installer Programme, installers gain more than quality products... They gain credibility, confidence, and a brand homeowners already recognise. Building trust is key for installers to win jobs.

INDEPENDENT NETWORK

Powered by VEKA.

EXCELLENCE IN PVCu WINDOW & DOOR INSTALLATIONS

Independent Network is a nationwide organisation that exclusively represents the finest local PVCu window & door installers in the industry, all of whom utilise VEKA products.

With a track record of millions of successful installations spanning over two decades, our Network's robust customer satisfaction rating authentically mirrors the passion, commitment, and proficiency that our members consistently deliver to homeowners.

PEACE OF MIND WITH THE INDEPENDENT NETWORK GUARANTEE

At Independent Network, we prioritise both quality and security to give homeowners complete confidence in their home improvement. That's why every installation comes with a robust 10-Year Insurance-Backed Guarantee. From the moment the order is registered with us by the installer, the investment is protected, offering peace of mind that lasts well beyond installation.

INSURANCE BACKED GUARANTEE

Our Insurance-Backed Guarantee gives homeowners protection for their investment. VEKA is the only systems provider to offer a comprehensive safety net, going above and beyond to ensure homeowner satisfaction. Our Deposit and Stage Payment Protection cover any payments the homeowner makes, providing an extra layer of reassurance every step of the way.

WE CARE ABOUT CUSTOMER SATISFACTION

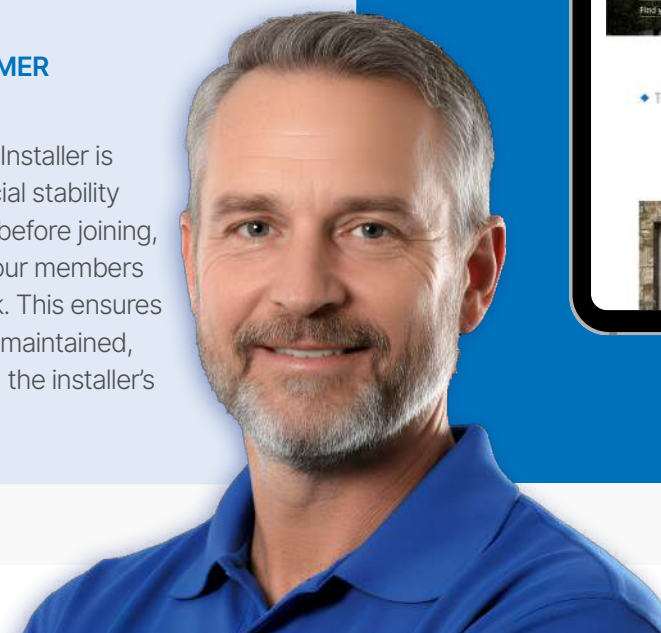

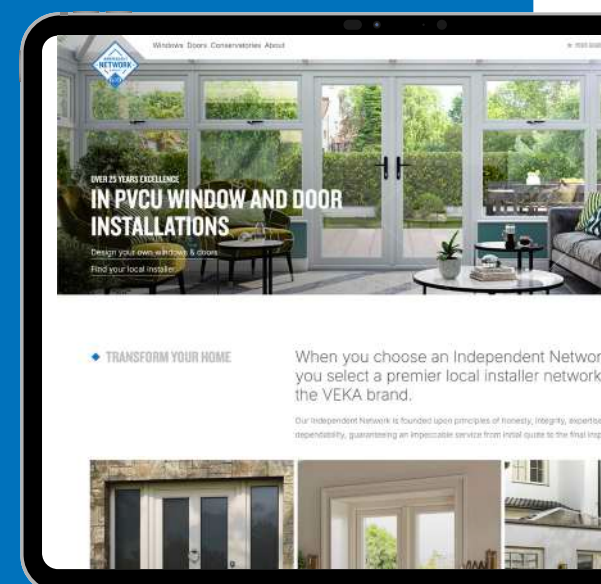

Each Independent network Installer is thoroughly vetted for financial stability and commitment to quality before joining, and we continuously audit our members through customer feedback. This ensures that our high standards are maintained, so homeowners can trust in the installer's dedication to the project.
